

## ADDENDUM #1

IFB Name: Wayfinding Sign Project – City of Conway

Issue Date: December 10, 2018 Bid Due Date: January 4, 2019

Required Project Completion Date: April 15, 2019

Addendum #1:

1. The bid mentions the City may award installation separate, so my question is can a bidder only submit pricing for the material and no installation? Our company does not install, but can supply the materials. Yes, you may submit for material only. **It may affect how your bid is scored, in that if pricing of installation is lower than we fear, we would certainly want one company to do both simultaneously.**
2. For the signs are you needing the legend on one or two sides? If one side then on the back side would you like a black vinyl so the aluminum mill finish is not showing? **Signs would be one sided only. If a black vinyl on the back of the sign was proposed, I would price it separately so it could be added as an option.**
