ADDENDUM #2

IFB Name: **Wayfinding Sign Project – City of Conway**

Issue Date: **December 10, 2018** **Bid Due Date:** **January 4, 2019**

Required Project Completion Date: **April 15, 2019**

Addendum #1:

1. Would it be possible for you to provide your city logo in a vector file with your authorized pantone color numbers for your green and gold colors? **The logo will be uploaded to the City's website with the RFP and Addenda. www.cityofconway.com**

2. Can you clarify on the bid proposal form page you have "material" and "labor" line and then "labor" again. Is the labor on the first line intended to be the deliver cost and the second "labor" would represent the installation and anything related to the installation (such as installation templates etc) **That is correct. The first lines are for the material and labor costs associated with the creation of the signage. The second is for the optional installation bid labor bid, as materials should be included in the former bid location.**

3. Which 27 sign's in the message schedule are the pedestrian signs vs the vehicular signs? **The RFP errantly left out the link to the location of the mapping of the wayfinding signage. The maps can be found at www.cityofconway.com with the RFP and Addenda. The downtown map notes the location of the 27 pedestrian level signs. The remainder of the signs are shown in the full map (which also shows downtown)**

4. If we submit with the 5%, if we are not accepted for the bid will the money be refunded? **Yes, if your bid is not accepted or awarded, the 5% will be refunded.**

5. I was wondering if you could provide me with a copy of the specifications, because the copy I have has no attached spreadsheet that states the locations and directional arrows. Also I do not know how to determine which sign is classified as highway or pedestrian. **Please download another copy of the RFP from our website at www.cityofconway.com. The locations and spreadsheet will be there as well.**
