

Water Quality and Storm Drainage Commission

Function & Purpose: Established by Ordinance #2004-06-28(F). Commission established for the purpose of providing input to City Council on issues pertaining to overall water quality and the management of storm water quantity and quality in the City of Conway. Commission shall consist of seven members, appointed by City Council, serving three-year terms, except those initially appointed who shall serve staggered terms. The expiration of terms is December 31. All members shall be eligible for reappointment by City Council for three-year terms. Members shall serve until their successors are appointed.

Meeting Time: Third Wednesday of the month at 4:00 pm
